

PHOENIX
ASSOCIATES

MENTAL HEALTH SERVICES

Explore a variety of mental health supports in a safe and caring environment

Mental Health Counseling

Phoenix Associates provides state of the art counseling services to the community. Our licensed providers offer individual, family, couples and group therapy.

Family Support Services

Our agency provides services to referred families in need of intensive support by providing a combination of counseling and case work recovery services. We offer a coordinated team of providers to offer of home-based casework and supervised visitation to meet each family's needs.

Group Therapy

Our clients have access to a range of therapist-led community groups to create healthy connection and healing for specific needs, including trauma, mindfulness, substance use and boundaries.

Teen Programs

Teen clients have the opportunity to attend several educational groups for teens to facilitate healthy relationships and coping. Groups offered address boundaries, peer relationships, and substance use to facilitate an understanding of how to safely navigate technology, social media, peer relationships, and more.
